

DEER MOUNTAIN FIRE PROTECTION DISTRICT

Deer Mountain Fire Protection District News Release

The Deer Mountain Fire Protection District will lower the fire restrictions to Stage One fire restrictions beginning on Tuesday August 18, 2026 at 12:00 pm

With the recent favorable weather conditions, we have received have allowed us to lower the fire restrictions to a Stage One. With these favorable weather conditions, fire conditions are still dangerous and with all of the fires burning throughout the western United States resources to fight fires are still limited. Our area is still in a drought and with the water restrictions in place we urge residents to follow the burning regulations to help reduce the risk of fires.

These restrictions are the same as Bureau of Land Management and Fremont County.

Marcus Widener

Fire Chief

Deer Mountain Fire Protection District
